

Press release

Nina Hampel appointed Key Accounts Manager at LUG aircargo handling GmbH

Effective January 1, LUG aircargo handling GmbH has nominated Nina Hampel as successor of Patrik Tschirch when the latter and Lutz Schmidt became co-managing directors of LUG.

Frankfurt/Main, January, 2013 — Nina Hampel (30) has been named Manager Key Accounts, Sales and Business Development at LUG aircargo handling effective January 1. In this function she succeeds Patrik Tschirch who has been responsible for growing the client base and sharpening the customer relationship management in cooperation with managing director Wolfgang Korte in the past two years.

Nina Hampel has some 13 years of experience in the Airport Industry under her wings. After her apprenticeship in aviation administration she has worked in various roles at the ground handler Aviapartner for six years, finally holding the position of Commercial Manager. Subsequently, she joined Randstad Germany to manage their subsidiary at Frankfurt Airport/Neu-Isenburg. She successfully completed a bachelor degree in transport management and operations while working at the same time.

„I am looking forward to the challenges of this new job. LUG aircargo handling is one of the most innovative independent air cargo handlers“ says Nina Hampel. „We are delighted to have Nina Hampel on board. She has settled in well at LUG already and has brought new energy into the company. LUG has set itself ambitious goals for the next few years, and we expect Nina Hampel to help us achieve these and further expand our footprint in the air cargo market despite the current economic climate,“ adds Patrik Tschirch.

In November 2012, the shareholders of LUG aircargo holding GmbH have nominated Patrik Tschirch (42) and Lutz Schmidt (42) as members of the management board effective January 1, 2013. Patrik Tschirch is now speaker of the board, CCO, and COO. Lutz Schmidt is responsible for finance and controlling, contracts and real estate management. Wolfgang Korte (63) will bow out of LUG after some twelve years at the helm and retire after a step-by-step handover on March 31, 2013.
